

Errata:

Aappilattoq in Qaasuitsup Kommunia was by mistake counted as part of Upernavik Town. This has now been corrected in Table 2 and the Stat Bank

Population 2010

The Population increases

By January 1st 2010 56.452 persons lived in Greenland. The population increased by 258 persons during 2009. This was the first time since 2005 as can be seen in table 1. In table 2 it can be seen the increase can be found in all municipalities except from Kujalleq municipality, where the population continues to decline.
